FUNERAL SERVICES FOR MRS. M'INTIRE

Funeral services for Mrs. Letitia F. McIntire, widow of the late Edwin A. McIntire, one of the leading lawyers of the city at one time, and mother of Elwood W. McIntire, a prominent local real estate and insurance operator, were held late yesterday afternoon at Rock Creek Cemetery Chapel.

The services were conducted by the Rev. Dr. Wilmer P. Johnston, assistant pastor of the First Congregational Church. Interment was in Rock Creek Cemetery.

Mrs. McIntire, who had been ill for a long time, died Thursday at the summer home of her son, 213 South Delaware avenue, Atlantic City, where she had been in the hope that a change of climate might benefit her health.

Mrs. McIntire was born in Pennsylvania, where she lived until the time of her marriage to Mr. McIntire. The couple came to this city, where Mr. McIntire opened an extensive law practice. Mrs. McIntire had lived here for fifty years, making her home for some time with her son at 716 East Capitol street. She was well known in social circles here, and had been prominent in church life. She was a member of the First Congregational Church.

Surviving her are her son and a daughter, Mrs. Lillie F. McIntire-Milla of this city.

He entered the Government service in the office of the auditor for the Interior Department on June 2, 1885, upon being mustered out of the service. He served here until June 10, 1898, just after the beginning of the Spanish-American war, when, owing to the great activity in the War Department, and the need for more employees, he was transferred to the office of the auditor for the War Department, where he served until the time of his death.

Mr. Hatch is survived by his widow, Mrs. Harriette O. Hatch, and a daughter, Mrs. Mollie H. Cleveland.

SOLDIER-ARTIST'S WORK ON EXHIBIT

John Ledru Stiffler, whose art work in Washington has attracted attention, is holding an exhibition of his work at the Arts Club, 2017 I street northwest.

Mr. Stiffler, who studied in New York and Pittsburgh for many years, took up art again after spending many months in the army.

Of his work now exhibited at the Arts Club, the greater part is done in black and white. "A Daughter of the Black Hills" is the title of one painting, which attracted attention at a dinner held at the Club Friday night. "St. Sebastian" another is called.

His batik work is of several colors. A yellow, lavender, and green scarf makes up the greater part of the batik work.

A few of his other paintings are: "Phantasy," "Circe," "Danae," "Pygmaeus," "Phantom," "The Chasm," "Nictiana," "The Wave and Brocade."

Mr. Stiffler's studio is located at 1310 Massachusetts avenue northwest. He spent several months on his paintings now exhibited at the Arts Club.

HERE'S WHAT WOMEN GET OFF BACKWARD

DULUTH, Minn., June 21.—The real meaning nowadays of the phrase "safety first" was discussed and explained at the conference of Michigan, Wisconsin, and Minnesota mining engineers, general superintendents, inspectors, and safety engineers last night.

F. E. Morris, chief secretary, National Safety Council, Chicago, said that during the nineteen months the United States was in the war, 50,000 American soldiers were killed in Europe, during the same period 228,000 men, women and children accidentally were killed in the United States; sixteen out of every 100 children under ten years of age were killed annually by accidents in the United States.

His investigations as to why women get off street cars backward and suffer accidents led to the discovery that out of seventeen women twelve suffered facing the rear. "The reason," he said, "is that woman's right arm usually is the stronger, and she uses it in alighting. With a man both arms are developed."

PORK BARREL BILLS FACE DESTRUCTION

The "pork barrel" of this Congress is threatened with destruction. The Republican economy program may force the House steering committee to withhold all public building bills from this session, it was learned today.

Republican Leader Mondell admitted the question had been "seriously discussed."

If the public building bills die in committee, the Republican argument will be that plenty of work existed and that new expenditures were necessary for that sole reason. The economy policy will constitute the other half of a defense, if one is required.

Many members feel that a delay of six months in the resumption of building will result in a big saving for the Government, Mondell said. He explained that the high cost of building materials has resulted in the return for additional authorizations on scores of public building bills.
